

GENERAL INTERNAL MEDICINE AT ITS BEST IN KENORA, ONTARIO!

Ever paddled to work or covered on-call from the beach?

Kenora, Ontario is located on beautiful Lake of the Woods and provides a fantastic backdrop for your work-life balance!

We have a vibrant downtown, art and music scene with excellent restaurants and unique shops.

Our regional population of over 20,000 full-time residents almost doubles in the summer as people come to enjoy all that Kenora has to offer!

Enjoy a robust & rewarding clinical experience!

Working in our 71-bed accredited teaching hospital you will gain extensive experience providing MRP coverage to a **4-bed ICU and consults on 45-bed Acute and Chronic care wings** as well as the **Emergency department**.

Diagnose a STEMI, manage MRSA bacteremia, treat a case of idiopathic angioedema, follow a patient with liver failure, run a code blue, advise on a case of rheumatoid arthritis in pregnancy, **call week** is never routine!

As the only permanent Internal Medicine Specialist service in town, build on your expertise by managing every medical subspecialty.

Take on the challenge of diagnosing undiagnosed cases **in the clinic**: from psoriatic arthritis to relapsing polychondritis; from periodic fever syndrome to cyclical vomiting syndrome, or simply diagnose a posterior circulation stroke in a patient with vertigo; there is no lack of intellectual stimulation.

Enjoy a **shared, rotating call schedule** and weekly service model that includes 2 weeks on, 1 week off with a **very generous compensation** that outcompetes most positions across the country (APP within top quarter of salary range).

You will be Supported!

Our hospital and family medicine clinics are staffed with **dynamic and collegial physicians and allied health professionals** with in-depth skills that come with Kenora's proud tradition of full-spectrum rural Family Medicine. You can also expect professional but laid back and friendly staff in keeping with the spirit of a small town.

Kenora is the second largest centre in the Northwest region and is District Health Campus offering you teaching opportunities with medical students and residents!

Our medical team provide 24/7 ER, surgical and anesthesia backup as well as 24/7 Lab/DI/RT/Psychiatry services.

You will also find regional telemedicine support for ED, Critical Care & Stroke protocols. With tertiary referral centers in Thunder Bay and Winnipeg.
