Academic General Internist

Clinician Scientist (Assistant Professor)

University Health Network/Sinai Health System

The Department of Medicine, Temerty Faculty of Medicine, University of Toronto and the Division of General Internal Medicine & Geriatrics, Department of Medicine, University Health Network (UHN)/Sinai Health System (SHS), are inviting applications for the position of an Academic General Internist. This full-time position will be eligible for an academic appointment at the University of Toronto with a position description of **Clinician Scientist** at the rank of **Assistant Professor,** based at UHN. It is expected that the position will be approximately 25% clinical and 75% related to research for a Clinician Scientist. Expected start date is July 1, 2027, or another mutually agreeable date thereafter.

We are seeking a physician who will foster excellence in academic general internal medicine. Our division is looking to recruit a Clinician Scientist at UHN with a specific interest in **clinical care of the highly complex patient including metabolic and congenital diseases, as well as in innovative models of care to address care gaps for such patients (including pathways for access; e.g. transitions of care from the complex pediatric setting to the adult**). Research excellence will be assessed by the presence of research grants, publications in leading journals, invited presentations at conferences, awards, and other related accomplishments.

The successful candidate will join the Division of General Internal Medicine & Geriatrics. The successful candidate will be expected to participate in general internal medicine clinical activities activities in both inpatient and ambulatory care, with at least half of their clinical work being in ambulatory care. They will also be expected to participate in the educational and relevant administrative activities of the Division.

The successful candidate must hold an MD degree and a PhD degree and must have or be eligible for certification in Internal Medicine by the Royal College of Physicians and Surgeons of Canada or hold international equivalent; and have or be eligible for medical licensure by the College of Physicians and Surgeons of Ontario. The successful applicant must demonstrate specialization and accomplishments in research.

Academic rank, salary and contractual arrangements will be commensurate with the qualifications and experience of the successful candidates. Compensation will be within the usual income range for an academic hospitalist in the Province of Ontario (estimated range is

$280,000-$350,000 per year), achieved through a combination of fee for service and stipends for weekly work and call shifts.

Applications will be accepted until December 15th or until the positions are filled. Interested individuals should submit their letter of intent, curriculum vitae, and the names and contact information for three references, ideally via email, to:
