

STAFF SPECIALIST, GENERAL MEDICINE HOBART, TASMANIA

Job ID H21_3906

The Royal Hobart Hospital is the tertiary referral hospital for Tasmania, and the principal teaching hospital for the University of Tasmania School of Medicine. The Hospital provides most specialist medical services for the region or state.

The Department of General Medicine currently has 13 staff specialists working between General Medicine and sub-speciality. The staff are organised into four units. Each unit is also staffed with two Junior Medical Officers and three General Medical Registrars who are usually pre-exams. There are also, advanced trainees in General Medicine. On average, 12-16 patients are admitted over a 24-hour cycle plus sub-speciality medicine admissions, with total admission under the Division of Medicine around 20-25 admissions per day

The Staff Specialist, General Medicine will provide a consultant role in General Medicine across Royal Hobart Hospital (RHH). Provide inpatient and outpatient care to public and private patients at (RHH) in General Medicine. Be involved in undergraduate and postgraduate teaching, and to be actively involved in research as well as undertake quality improvement activities.

Reporting to the Head of Unit General Medicine, you will play a key role in the delivery of clinical care, teaching, training, research, quality and management across General Medicine, which has 15 Consultants in the team.

A highly accomplished clinician in your own right (FRACP or equivalent), you will contribute significantly to the transformation of the General Medicine Unit at Royal Hobart Hospital. Whilst living and working in one of Australia's most envious locations with some amazing natural attractions, opportunities and exceptional food and produce.
