

Telemedicine/Virtual Part time Internist with a cardiology focus

Location: Telemedicine, flexible scheduling

About Us: Our team comprises a diverse group including internists, general cardiologists, and subspecialists in cardiac imaging, electrophysiology, interventional cardiology, and structural cardiology.

We are looking for a part time internist to see telemedicine consultations and followups, with a cardiac focus. 2-4 days per month.

Requirements:

- Board certified internist with an interest in cardiology.
- Commitment to providing high-quality patient care.
- Interest in reading cardiac diagnostics stress tests, holters etc. (mentorship can be provided)
- Flexible commitment – Minimum of 2 shifts per month.
- Telemedicine consultation.

What We Offer:

- **Modern EMR System:** A seamless, paperless work environment, designed for efficiency. You can review and report studies from the comfort of your home.
- **Turnkey Solution:** Join a practice that offers a plug-and-play setup, enabling you to focus on patient care.
- **Strong Referral Base:** Take advantage of our well-established patient base, ensuring a steady flow of referrals and opportunities for professional growth.
- **Flexible Work Solutions:** We offer work-from-home options for diagnostics, medical record-keeping, and virtual visits, giving you the flexibility to manage your work environment.

Application Process: Submit CV or reply to mill543bill@gmail.com
