

## CSIM Annual Meeting | Congrès annuel de la SCMI

October 11-14, 2023 | 11 au 14 octobre 2023

Québec City Convention Centre

Québec City, QC

Throughout the meeting, participants will hear from internationally recognized researchers, educators, and clinicians through a diverse program of workshops, plenary sessions, Top Five Papers, and more. These sessions aim to cover the most current topics and issues relevant to physicians in the field of General Internal Medicine.

Des chercheurs, des éducateurs et des cliniciens de renommée mondiale viendront nous entretenir de ces sujets au congrès. Ces exposés stimuleront la discussion sur la place et l'importance de l'interniste généraliste comme promoteur de la prise en compte des données probantes les plus concluantes et des pratiques exemplaires dans le but d'offrir des soins et des services de santé sûrs et à la fine pointe.

**MAINTENANCE OF CERTIFICATION:** The CSIM Annual Meeting 2023 is an educational event approved as an Accredited Group Learning Activity under Section 1 of the Framework of Continuing Professional Development options as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada. **As an accredited provider, the CSIM has approved this program for 21 hours.**

**MAINTIEN DU CERTIFICAT :** La présente activité (Congrès annuel de la SCMI 2023) est une activité d'apprentissage collectif agréée (section 1), au sens que lui donne le programme de Maintien du certificat du Collège royal des médecins et chirurgiens du Canada; elle a été approuvée par la Société canadienne de médecine interne **pour un maximum de 21 heures.**

Download the Meeting Mobile App for program updates, evaluation forms, room locations, passport to the exhibits and more!

Téléchargez l'application mobile pour les mises à jour du programme, les formulaires d'évaluation, l'emplacement des salles, le Passeport Exposant et plus encore !

#CSIM2023

0715 – 1215 **PRE-COURSE: CIMUS Basic Focused Cardiac Ultrasound Workshop** (*Pre-registrants only*) **206AB**

- List the common uses of focused cardiac ultrasound in the care of the general medical patient.
- Recognize the scope and limitations of focused cardiac ultrasound.
- Acquire and interpret basic findings in the four focused cardiac ultrasound views on a standardized patient.

1000 **REGISTRATION OPENS / OUVERTURE DE L'INSCRIPTION** **Hall2000**

1300 – 1630 **EXTENDED WORKSHOPS**

A. **NEUROLOGY** – Chair: *Dr. Stephen Duke* **2105**

1. **Stroke Management** – *Dr. Gurpreet Jaswal, Mississauga, ON*

- Recognize when EVT is indicated for a patient who suffered a stroke.
- Assess patients for dual antiplatelet therapy, understanding indications, contraindications and duration of therapy.
- Select patients that would be candidates for thrombolysis in hospital, using newer data to guide the decision-making process.

*CanMEDS: Manager, Scholar, Professional, Medical Expert*

2. **Encephalitis: How to Stop Being Confused** – *Dr. Alex Muccilli, Toronto, ON*

- Develop a differential diagnosis for encephalitis, including infectious and non-infectious causes.
- Diagnose new and emerging causes of encephalitis.
- Cost-effectively investigate patients for encephalitis, recognizing relevant antibodies for work-up.

*CanMEDS: Medical Expert*

3. **Management of Migraine in 2023** – *Dr. Elizabeth Leroux, Montreal, QC*

- Diagnose migraine and define the clinical situation to build a tailored therapeutic plan.
- Guide and educate patients in outpatient prevention of migraine, including pharmacological and behavioural approaches.
- Discuss and explore novel treatments, including monoclonal antibodies and gepants.

*CanMEDS: Health Advocate, Professional, Medical Expert*

B. **PERIOPERATIVE CARE** – Chair: *Dr. Sophie Grand'Maison, Montreal, QC* **2000B**

1. **Controversial Issues in Preoperative Anticoagulant Management** – *Dr. James Douketis, Hamilton, ON*

- Assess when anticoagulation and antiplatelet agents can be safely stopped before specific procedures.
- Recommend when and how anticoagulants and antiplatelets can be restarted after a surgery.
- Determine in which cases bridging strategies should be proposed and prescribe an appropriate regimen.

*CanMEDS: Communicator, Collaborator, Scholar, Professional, Medical Expert*

2. **Perioperative Assessment and Management of Cardiac Ischemia** –

*Dr. Emmanuelle Duceppe, Montreal, QC*

- Evaluate cardiac risk preoperatively, including for one-day surgery.
- Propose an investigation plan and treatment when MINS is diagnosed.

*CanMEDS: Collaborator, Medical Expert*

3. **Perioperative Management of Anemia** – *Dr. Amal Bessissow, Montreal, QC*

- Assess the impact of preoperative anemia on postoperative issues.
- Determine targets for preoperative hemoglobin depending on the procedure.
- Propose a preoperative plan to manage anemia.

*CanMEDS: Communicator, Collaborator, Manager, Health Advocate, Scholar, Professional, Medical Expert*

1300-1355: Part 1  
1400-1455: Part 2  
1455-1530: Break  
1530-1625: Part 3

C. **CRITICAL CARE** – Chair: Dr. Jorin LindenSmith, Dartmouth, NS

204AB

1. **Ventilation in Critical Care** – Dr. Marko Balan, St. John's, NL

- Describe common modes of ventilation and associated complications.
- Implement common weaning parameters for ventilated patients.
- Describe the evolving role of non-invasive positive pressure ventilation in managing acute respiratory failure (pre and post pandemic).

CanMEDS: Medical Expert

2. **Toxidromes for the General Internist** – Dr. Jonathan Zipursky, Toronto, ON

- Recognize common toxidromes based on patterns of clinical findings.
- Distinguish between serotonin syndrome and neuroleptic malignant syndrome.
- Select investigations for the patient with suspected toxic ingestion and establish a systematic management plan.

CanMEDS: Communicator, Collaborator, Health Advocate, Scholar, Medical Expert

3. **What's New in Sepsis** – Dr. Dev Jayaraman, Montreal, QC

- Summarize the Surviving Sepsis Campaign 2021 guideline updates.
- Implement an evidence-based approach in selection and initiation of fluid, vasopressor and inotrope therapy in sepsis management.
- Describe post-sepsis syndrome and parallels to long COVID.

CanMEDS: Medical Expert

D. **CARDIOLOGY** – Chair: Dr. Brian Wirzba, Edmonton, AB

205AB

1. **Electrocardiogram Quiz** – Dr. Jean-Marc Raymond, Montreal, QC

- Utilize electrocardiogram pearls in clinical practice.
- Recognize not-to-miss electrocardiogram diagnoses.
- Apply a systematic approach to the interpretation of challenging electrocardiograms.

CanMEDS: Medical Expert

2. **Atrial Fibrillation Management** – Dr. Katia Dyrda, Montreal, QC

- Manage a patient with a new diagnosis of atrial fibrillation and recognize indications for referral for ablation therapy.
- Apply the findings of new landmark trials in the management of atrial fibrillation management.
- Recognize when to select a rhythm control treatment strategy.

CanMEDS: Communicator, Collaborator, Manager, Health Advocate, Scholar, Professional, Medical Expert

3. **Heart Failure Update** – Dr. Lisa Mielniczuk, Ottawa, ON

- Manage a patient with heart failure with moderately reduced or preserved ejection fractions.
- Understand in evidence the use of SGLT2 inhibitors in the management of heart failure.
- Use a systematic approach to the management of the hospitalized patient with cardiorenal syndrome.

CanMEDS: Medical Expert

1455–1530 / 1625–1645 **Networking Break and View the Exhibits**

2000A

**Pause de réseautage et visite des expositions**

1650 – 1800 **WELCOME REMARKS, OPENING PLENARY AND AWARD PRESENTATION**

2000B

Chair: Dr. Jeffrey Schaefer, Calgary, AB

**State of the Art: Preventing Medical Readmissions** – Dr. Lauren Lapointe-Shaw, Toronto, ON

- Develop an understanding of readmission avoidability.
- Learn about evidence-based transitional care.
- Discover how we currently measure up and where opportunities lie.

CanMEDS: Manager, Scholar,  
Medical Expert

**2023 CSIM Awards for Distinguished Service in General Internal Medicine**

**Congratulations to Dr. Edward Etchells (Toronto) and Dr. Vicky Tagalakis (Montreal)**

0730 **BREAKFAST OPENS / OUVERTURE DU PETIT DÉJEUNER** Foyer2000

0800 – 0900 **BREAKFAST AND THE ACP LECTURE** – Chair: Dr. Isabelle Hébert, Gaspé, QC 2000CD

**Top Five Papers** – Dr. Luc Lanthier, Sherbrooke, QC

- Identify and summarize the findings of five papers published in 2022-2023 that are highly relevant to internists and general internists in Canada.
- Review the strengths and limitations of the papers using the principles of evidence-based medicine.
- Recognize the implications of these papers for one's own clinical practice.

CanMEDS: Communicator, Manager, Health Advocate, Scholar, Professional, Medical Expert

0915 – 1145 **CONCURRENT WORKSHOPS / ATELIERS SIMULTANÉS**

(Workshop titles are listed in the language of presentation)

(Les titres des ateliers sont indiqués dans la langue de présentation)

Session 1: 0915-1015  
Break/pause: 1015-1045  
Session 2: 1045-1145

**0915 – 1015 FIRST TIMESLOT / PREMIÈRE SESSION** – Select one workshop / Sélectionner un atelier

- **W01a. Nouveaux dispositifs cardiaques : mise à jour** – Dre Julia Cadrin-Tourigny, Montréal, QC 2104A
  - Référer des patients pour de nouveaux dispositifs cardiaques.
  - Interpréter les anomalies relevées par les nouveaux dispositifs cardiaques.

CanMEDS: Expert médical
- **W02a. Nouveautés en ostéoporose** – Dre Josée Villeneuve, Québec, QC 205C
  - Développer un plan de traitement spécifique à certaines populations.
  - Déterminer quel patient et surtout quand devrait-on prescrire un arrêt de médication.
  - Utiliser les biomarqueurs osseux de façon appropriée dans le suivi des patients.

CanMEDS: Communicateur, Collaborateur, Érudit, Professionnel
- **W03a. Duration of Therapy in Antibiotics** – Dr. Paul Bunce, Toronto, ON 2000B
  - Review the latest evidence in durations of therapy in antibiotics.
  - Apply this evidence in selecting duration of therapy for commonly encountered infections.

CanMEDS: Collaborator, Manager, Medical Expert
- **W04a. PAD: Where Are We in Secondary Prevention** – Dr. Khuê Ly, Montreal, QC 2105
  - Discuss risk factor modification strategies.
  - Prescribe optimal preventative pharmacologic therapy in patients with PAD.
  - Describe the cost-effectiveness of the COMPASS and VOYAGER regimen in low and high-risk patients with PAD.

CanMEDS: Health Advocate, Medical Expert
- **ATELIER ANNULÉ : W05a. Prise en charge de l'hypertension chez le patient hospitalisé**  
Dr Maxime Lamarre-Cliche, Montréal, QC
- **W06a. Endocrine World of Hormone Replacement Therapy** – Dr. Hélène Lavoie, Montreal, QC 2104B
  - Employ evidence-based strategies of hormone replacement therapy in pre- and post-menopausal patients.
  - Evaluate the risks of hormone replacement therapy in patients with specific comorbidities.
  - Identify appropriate patients and situations for testosterone replacement therapy.

CanMEDS: Communicator, Collaborator, Health Advocate, Medical Expert
- **W07a. Traitement médical de l'obésité** – Dre Marie-Philippe Morin, Québec, QC 207
  - Résumer les mécanismes d'action des médicaments et les données scientifiques disponibles quant aux traitements pharmacologiques de l'obésité.
  - Appliquer une approche médicale progressive et personnalisée pour le traitement de l'obésité.

CanMEDS: Communicateur, Collaborateur, Professionnel, Expert médical

- **W08a. An Approach to Diagnosis of MGUS and Multiple Myeloma –** **206B**  
*Dr. Sylvia McCulloch, Calgary, AB*
- Prescribe the initial work-up for suspected monoclonal gammopathy of undetermined significance (MGUS) and multiple myeloma.
  - Diagnose MGUS and multiple myeloma in non-classic presentations.
  - Plan follow-ups for these pathologies including when to refer to a hematologist.
- CanMEDS: Medical Expert*
- **W09a. STOP! Did You Think of POTS? –** *Dr. Juan Guzman, Hamilton, ON* **205AB**
- Recognize the symptoms of POTS in outpatient practice.
  - Diagnose POTS disease and rule out mimickers.
  - Manage and understand the various treatment modalities and trajectories for patients with POTS.
- CanMEDS: Scholar, Medical Expert*

**1015 – 1045 Networking Break and View the Exhibits / Pause de réseautage et visite des expositions** **2000A**

**1045 – 1145 SECOND TIMESLOT / DEUXIÈME SESSION – Select one workshop / Sélectionner un atelier**

- **W01b. Modern Cardiac Device Update –** *Dr. Julia Cadrin-Tourigny, Montreal, QC* **2104A**
- Refer patients for new cardiac devices.
  - Interpret abnormalities recorded on modern cardiac devices.
- CanMEDS: Medical Expert*

Session 1: 0915-1015 Break/pause: 1015-1045 Session 2: 1045-1145
--

- **W02b. Updates in Osteoporosis –** *Dr. Josée Villeneuve, Quebec, QC* **205C**
- Develop a treatment plan for specific populations.
  - Determine which patients, and when, should be prescribed a drug holiday.
  - Appropriately use biomarkers in follow-up care.
- CanMEDS: Communicator, Collaborator, Scholar, Professional*

- **W03b. Duration of Therapy in Antibiotics –** *Dr. Paul Bunce, Toronto, ON* **2000B**
- Review the latest evidence in durations of therapy in antibiotics.
  - Apply this evidence in selecting duration of therapy for commonly encountered infections.
- CanMEDS: Collaborator, Manager, Medical Expert*

- **W04b. MAP : Où en sommes-nous en matière de prévention secondaire –** **2105**  
*Dre Khuê Ly, Montréal, QC*
- Discuter des stratégies de modification des facteurs de risque.
  - Prescrire un traitement pharmaceutique préventif optimal chez les patients atteints de MAP.
  - Décrire le rapport coût-efficacité de la stratégie thérapeutique utilisée dans les études COMPASS et VOYAGER chez les patients atteints de MAP qui sont à risque faible ou élevé.
- CanMEDS: Promoteur de la santé, Expert médical*

- **WORKSHOP CANCELLED: W05b. Management of Hypertension in the Hospitalized Patient**  
*Dr. Maxime Lamarre-Cliche, Montreal, QC*

#CSIM2023

- **W06b. Le monde de l'hormonothérapie substitutive – Dre Hélène Lavoie, Montréal, QC** **2104B**
- Utiliser des stratégies d'hormonothérapie substitutive fondées sur des données probantes chez les patientes en préménopause et celles ménopausées.
  - Évaluer les risques d'une hormonothérapie substitutive chez les patientes présentant certaines comorbidités.
  - Identifier les patients et les situations qui se prêtent à une thérapie de remplacement de la testostérone.
- CanMEDS: Communicateur, Collaborateur, Promoteur de la santé, Expert médical*
- **W07b. Medical Treatment of Obesity – Dr. Marie-Philippe Morin, Quebec City, QC** **207**
- Summarize drug mechanisms and scientific evidence available for pharmacologic treatment of obesity.
  - Apply a stepwise and personalized medical approach for treating obesity.
- CanMEDS: Communicator, Collaborator, Professional, Medical Expert*
- **W08b. An Approach to Diagnosis of MGUS and Multiple Myeloma – Dr. Sylvia McCulloch, Calgary, AB** **206B**
- Prescribe the initial work-up for suspected monoclonal gammopathy of undetermined significance (MGUS) and multiple myeloma.
  - Diagnose MGUS and multiple myeloma in non-classic presentations.
  - Plan follow-ups for these pathologies including when to refer to a hematologist.
- CanMEDS: Medical Expert*
- **W09b. STOP! Did you Think of POTS? – Dr. Juan Guzman, Hamilton, ON** **205AB**
- Recognize the symptoms of POTS in outpatient practice.
  - Diagnose POTS disease and rule out mimickers.
  - Manage and understand the various treatment modalities and trajectories for patients with POTS.
- CanMEDS: Scholar, Medical Expert*

1145 **LUNCH OPENS / OUVERTURE DU LUNCH** **Foyer2000**

1200 – 1315 **LUNCH AND PLENARY – Chair: Dr. Euseok Kim, Langley, BC** **2000CD**

**Pearls from the CMPA for the Internists – Dr. Eileen Bridges, Ottawa, ON**

- Describe common medico-legal risks associated with internal medicine practice.
- Identify features of practice that impact accurate diagnosis.
- Implement strategies to improve patient safety.

*CanMEDS: Communicator, Scholar, Medical Expert*

### Peruse the Exhibit Hall / Visitez le hall d'exposition

1330 – 1535 **CLINICAL VIGNETTES CLINIQUES – Chair: Dr. Isabelle Hébert, Gaspé, QC** **2000B**

*Join us at this highly anticipated competition as trainees present unusual clinical cases!*

- Describe unusual presentations of common diseases and common presentations of rare diseases.
- Become familiar with the characteristics of engaging and educational case presentations.

*Rejoignez-nous lors de cette compétition très attendue où les stagiaires présenteront des cas cliniques exceptionnels !*

- Décrire des présentations exceptionnelles de maladies communes et des présentations communes de maladies rares.
- Se familiariser avec les caractéristiques des présentations de cas attrayantes et éducatives.

*CanMEDS: Scholar, Medical Expert / Érudit, Expert médical*

1. **Immune Checkpoint Inhibitors: The Smoke Before the Fire – Dr. Olivier Del Corpo, McGill University**
2. **A Painful Pleural Fluid That Just Would Not Go Away – Dr. Dong Hyun Kim, McGill University**
3. **A Mysterious Case of Vertigo: Chasing Zebras – Dr. Tiffany Mach, McGill University**
4. **Hookah Pipes and Neuro Gripes: An Unforgettable Night in the ER – Dr. Shivani Mathur, University of Manitoba**
5. **Double Jeopardy: Chest Pain Syndrome in a Postpartum Female with Coagulopathy – Dr. Jaspreet Padam, University of Saskatchewan**
6. **Reviewing Your ABCs – Dr. Rohan Philip, University of Toronto**
7. **My Worst Nightmare! – Ms. Stephanie Wang, Université de Montréal**
8. **Feverishly Looking for an Answer: A Case of Fever of Unknown Origin – Dr. Jun Yi, University of Ottawa**
9. **A Biopsy Elusive Multisystemic Infiltrate – Dr. Rui Min Zuo, Université de Montréal**
10. **Bombe à retardement – Dr. Johanness Boudreault-Rousse, Université de Sherbrooke**

**THURSDAY, OCTOBER 12, 2023** (continued) / **JEUDI LE 12 OCTOBRE 2023** (continué)

**1535 – 1635 CSIM Annual General Meeting of Members / Assemblée générale annuelle des membres SCMI 2000B**  
*Open only to CSIM Members and Associates / Ouvert uniquement aux membres et associés de la SCMI*

**1700 – 1900 Atelier de facturation 205AB**  
*Open only to ASMIQ members and General Internal Medicine residents PGY4-5.*  
*Ouvert uniquement aux membres de l'ASMIQ et aux résidents en médecine interne générale de 4e à 5e année.*

**FRIDAY, OCTOBER 13, 2023 / VENDREDI LE 13 OCTOBRE 2023**

**0730 BREAKFAST OPENS / OUVERTURE DU PETIT DÉJEUNER Foyer2000**

**0800 – 0900 BREAKFAST AND PLENARY – Chair: Dr. Steven Shadowitz, Toronto, ON 2000CD**  
**Redesigning the Clinical Teaching Unit: A Vision for the Present**  
*Dr. Zachary Feilchenfeld (Toronto, ON) Dr. Brandon Tang (Toronto, ON) Dr. Mark Goldszmidt (London, ON)*  
*Dr. Erin Spicer (London, ON) Dr. Leslie Martin (Hamilton, ON) Dr. Jennifer Ringrose (Edmonton, AB)*  
*Dr. Rosalie-Selene Meunier (Montreal, QC)*

- Reflect on the purpose, mission, and organization of Internal Medicine Clinical Teaching Units (CTU) in one's own setting and to compare and contrast with CTUs in other settings across Canada.
- Apply lessons learned from different approaches taken to adapt CTUs to modern clinical-educational contexts.
- Develop ideas for approaches to current and future challenges affecting CTUs and similar clinical-educational structures in their own institutions.

*CanMEDS: Communicator, Collaborator, Manager, Scholar, Professional, Medical Expert*

**0915 – 1145 CONCURRENT WORKSHOPS / ATELIERS SIMULTANÉS**  
*(Workshop titles are listed in the language of presentation)*  
*(Les titres des ateliers sont indiqués dans la langue de présentation)*

Session 1: 0915-1015  
Break/pause: 1015-1045  
Session 2: 1045-1145

**0915 – 1015 FIRST TIMESLOT / PREMIÈRE SESSION – Select one workshop / Sélectionner un atelier**

➤ **W10a. Alcohol and Opiate Misuse: Therapy and Withdrawal from ER to Discharge 205AB**  
*Dr. Jon Mong, Toronto, ON*

- Evaluate and manage patients who require treatment for acute alcohol withdrawal or opiate withdrawal.
- Identify which treatments are available.
- Compare and contrast the management approach for these two conditions.
- Determine what should be our role as specialists in GIM in the ER, during admission, post-discharge, and in long-term follow-up.

*CanMEDS: Communicator, Collaborator, Health Advocate, Medical Expert*

➤ **W11a. When the Kidneys Fail: Managing Complex Disease in the Context of Advanced CKD 2000B**  
*Dr. Bourne Auguste, Toronto, ON*

- Understand complexity and advancement in recent literature on anticoagulation options in CKD for different indications.
- Select new pharmacologic options to improve renal outcomes.
- Develop an approach to contrast imaging and procedures in patients with pre-dialysis end stage renal disease.

*CanMEDS: Communicator, Collaborator, Health Advocate, Scholar, Medical Expert*

➤ **W12a. Update in Asthma Treatment – Dr. Krystelle Godbout, Quebec City, QC 2105**

- Prescribe maintenance treatment in severe asthma.
- Review indications for patient admittance for a flare and release after treatment.
- Manage light and severe asthma flare in hospital.

*CanMEDS: Collaborator, Health Advocate, Medical Expert*

➤ **W13a. State of the Art: Diabetes Management for the Internist – 207**  
*Dr. Jennifer Yamamoto, Winnipeg, MB*

- Discuss advancements in the automation of diabetes management.
- Recite the evidence behind use of technological advances in diabetes management.
- Demonstrate use of technology in patient management.

*CanMEDS: Communicator, Collaborator, Manager, Health Advocate, Scholar, Professional, Medical Expert*

- **W14a. Dyslipidémie: êtes-vous vraiment à jour? – Dr George Thanassoulis, Montréal, QC** **205C**
  - Déterminer les cibles thérapeutiques en dyslipidémie en prévention primaire et secondaire.
  - Identifier et traiter les patients qui requièrent un traitement en ajout ou en remplacement des statines.
  - Reconnaître les patients avec hypertriglycéridémie pouvant bénéficier d'un traitement.

*CanMEDS: Promoteur de la santé, Expert médical*
  
- **W15a. New Kids of the Oncology Block – Dr. Ramy Saleh, Montreal, QC** **2104A**
  - Identify the most recent treatment modalities.
  - Discuss the pros and cons of cytotoxic versus immunotherapy.
  - Recognize and treat complications of the newer agents.

*CanMEDS: Communicator, Manager, Professional, Medical Expert*
  
- **W16a. Vasculitis: Diagnostic Imaging and Treatment Beyond Corticosteroids – Dr. Jean-Paul Makhzoum, Montreal, QC** **206B**
  - Implement a diagnostic strategy including new imaging modalities in vasculitis.
  - Employ evidence-based treatment of giant cell arteritis.
  - Summarize upcoming advances in vasculitis diagnosis and treatment.

*CanMEDS: Collaborator, Professional, Medical Expert*
  
- **W17a. Updates in Preeclampsia – Dr. Isabelle Malhamé, Montreal, QC** **204AB**

*This workshop was planned in collaboration with Groupe d'étude en médecine obstétricale du Québec.*

  - Use a systematic approach to the diagnosis and management of preeclampsia in the clinical setting.
  - Understand the role of biomarkers in the evaluation of the risk of preeclampsia.
  - Integrate preeclampsia in the risk stratification of patients for long-term cardiovascular complications.

*CanMEDS: Communicator, Collaborator, Manager, Health Advocate, Scholar, Professional, Medical Expert*
  
- **W18a. Approche du bilan hépatique perturbé en grossesse – Dre Florence Weber, Montréal, QC** **2104B**

*Cet atelier a été organisé en collaboration avec le Groupe d'étude en médecine obstétricale du Québec.*

  - Reconnaître les principales maladies hépatiques propres à chaque trimestre de la grossesse.
  - Interpréter les trouvaillles cliniques et paracliniques afin de distinguer les maladies hépatiques liées à la grossesse.
  - Intégrer la prise en charge initiale et le suivi des maladies hépatiques liées à la grossesse.

*CanMEDS: Collaborateur, Expert médical*

**1015 – 1045 Networking Break and View the Exhibits / Pause de réseautage et visite des expositions** **2000A**

**1045 – 1145 SECOND TIMESLOT / DEUXIÈME SESSION – Select one workshop / Sélectionner un atelier**

- **W10b. Alcohol and Opiate Misuse: Therapy and Withdrawal from ER to Discharge – Dr. Jon Mong, Toronto, ON** **205AB**
  - Evaluate and manage patients who require treatment for acute alcohol withdrawal or opiate withdrawal.
  - Identify which treatments are available.
  - Compare and contrast the management approach for these two conditions.
  - Determine what should be our role as specialists in GIM in the ER, during admission, post-discharge, in long-term follow-up.

*CanMEDS: Communicator, Collaborator, Health Advocate, Medical Expert*
  
- **W11b. When the Kidneys Fail: Managing Complex Disease in the Context of Advanced CKD** **2000B**

*Dr. Bourne Auguste, Toronto, ON*

  - Understand complexity and advancement in recent literature on anticoagulation options in CKD for different indications.
  - Select new pharmacologic options to improve renal outcomes.
  - Develop an approach to contrast imaging and procedures in patients with pre-dialysis end stage renal disease.

*CanMEDS: Communicator, Collaborator, Health Advocate, Scholar, Medical Expert*

Session 1: 0915-1015  
 Break/pause: 1015-1045  
 Session 2: 1045-1145

- **W12b. Traitement de l'asthme : mise à jour** – Dre Krystelle Godbout, Québec, QC 2105
- Prescrire un traitement d'entretien pour l'asthme grave.
  - Réviser les critères d'admission d'un patient présentant une exacerbation, et ceux de l'obtention du congé après traitement.
  - Prendre en charge un cas d'exacerbation d'asthme léger ou grave en milieu hospitalier.
- CanMEDS: Collaborateur, Promoteur de la santé, Expert médical*
- **W13b. State of the Art: Diabetes Management for the Internist** – 2107
- Dr. Jennifer Yamamoto, Winnipeg, MB*
- Discuss advancements in the automation of diabetes management.
  - Recite the evidence behind use of technological advances in diabetes management.
  - Demonstrate use of technology in patient management.
- CanMEDS: Communicator, Collaborator, Manager, Health Advocate, Scholar, Professional, Medical Expert*
- **W14b. Dyslipidemia: Are You Really up to Date?** – Dr. George Thanassoulis, Montreal, QC 205C
- Determine the cholesterol treatment goals in primary and secondary prevention.
  - Identify patients who require non-statin treatments.
  - Identify which patient with elevated triglyceride levels requires treatment and prescribe the appropriate therapy.
- CanMEDS: Health Advocate, Medical Expert*
- **W15b. New Kids of the Oncology Block** – Dr. Ramy Saleh, Montreal, QC 2104A
- Identify the most recent treatment modalities.
  - Discuss the pros and cons of cytotoxic versus immunotherapy.
  - Recognize and treat complications of the newer agents.
- CanMEDS: Communicator, Manager, Professional, Medical Expert*
- **W16b. Vasculite : Imagerie diagnostique et traitements autres que les corticostéroïdes** – 206B
- Dr Jean-Paul Makhzoum, Montréal, QC*
- Établir une stratégie de diagnostic incluant les nouvelles techniques d'imagerie relatives aux vasculites.
  - Traiter l'artérite à cellules géantes en s'appuyant sur les données probantes.
  - Faire une synthèse des avancées imminentes en matière de diagnostic et de traitement des vasculites.
- CanMEDS: Collaborateur, Professionnel, Expert médical*
- **W17b. Mise à jour en pré-éclampsie** – Dre Isabelle Malhamé, Montréal, QC 204AB
- Cet atelier a été organisé en collaboration avec le Groupe d'étude en médecine obstétricale du Québec.*
- Utiliser une approche systématique pour le diagnostic et la prise en charge de la pré-éclampsie en milieu clinique.
  - Comprendre le rôle des biomarqueurs dans l'évaluation du risque de pré-éclampsie.
  - Intégrer la pré-éclampsie dans la stratification du risque de complications cardiovasculaires à long terme.
- CanMEDS: Communicateur, Collaborateur, Leader, Promoteur de la santé, Érudit, Professionnel, Expert médical*
- **W18b. Approach to Hepatic Lab Abnormalities in Pregnancy** 2104B
- Dr. Florence Weber, Montréal, QC*
- This workshop was planned in collaboration with Groupe d'étude en médecine obstétricale du Québec.*
- Identify the main causes of elevated liver enzymes in pregnancy for each trimester.
  - Contextualize clinical and paraclinical markers in distinguishing pregnancy-related hepatic diseases.
  - Integrate initial management and appropriate follow-up for each of the main pregnancy-related hepatic diseases.
- CanMEDS: Collaborator, Medical Expert*

VISIT THE EXHIBITS FOR YOUR CHANCE TO WIN!

Visit the exhibits with your *Passport to the Exhibits* card or use the Mobile App for a chance to win a free registration to the 2024 CSIM Meeting or a \$100 gift card!

VISITEZ LES EXPOSANTS ET COUREZ LA CHANCE DE GAGNER !

Visitez les expositions avec votre carte *Passeport* ou utilisez l'application mobile pour avoir une chance de gagner une inscription gratuite au Congrès du SCMI de 2024 ou une carte-cadeau de 100 \$ !

1145 **LUNCH OPENS / OUVERTURE DU LUNCH** Foyer20001200 – 1330 **LUNCH AND SENIOR / NEW INVESTIGATOR LECTURES** – Chair: Dr. Fahad Razak, Toronto, ON 2000CD➤ **Research & Medicine: How we learn... and how we can improve****Dr. François Lamontagne – CSIM Senior Investigator Award Recipient**

- Discuss how increasing awareness and communication of uncertainty may improve safety and shared decision-making.
- Discuss how building research capacity and improving research quality hinges largely on clinicians, patients, and health systems rather than on the research community.

*CanMEDS: Collaborator, Manager, Health Advocate, Scholar, Professional*➤ **Medicine in the Age of Data – Dr. Amol Verma – CSIM New Investigator Award Recipient**

- Appreciate the paradigm shift in attitudes toward clinical information and consider implications for practice.
- Recognize the opportunities for data-driven clinical practice improvement.
- Understand the potential and risks of Artificial Intelligence-based technologies in medicine.

*CanMEDS: Collaborator, Scholar*1345 – 1445 **Plenary** – Chair: Dr. Amy Hendricks, Antigonish, NS 2000B**AI and Healthcare: What the Internist Needs to Know** – Dr. Eric Yamga, Montreal, QC

- Differentiate between key technical concepts, thereby gaining an intuitive understanding of the fundamental principles of Artificial Intelligence (AI).
- Critically understand the benefits and applications of AI in improving patient care and reducing administrative burdens.
- Identify the potential challenges and risks associated with AI in healthcare, with a specific focus on ethical and security concerns.

*CanMEDS: Manager, Professional, Scholar, Communicator*1345 – 1445 **POSTER COMPETITION** (concurrent to the plenary) Hall2000**Peruse the Exhibit Hall and Poster Hall / Visitez le hall d'exposition et les affiches**1500 – 1635 **RESEARCH AND QI ORAL COMPETITION** – Chair: Dr. Fahad Razak, Toronto, ON 2000B*Join us as trainees in IM/GIM present the results of research/QI projects!*

- Recite updates on current research in the field of general internal medicine.
- Apply QI methodology to the care of internal medicine patients.

*CanMEDS: Scholar, Manager, Medical Expert***1. Will Modifying the Amount of “Normals” in a Training Set of EKGs Affect Knowledge Acquisition?***Dr. Muneeb Ahmed, University of Toronto***2. Prospective Recovery Assessment to Improve SuccEss (PRAISE) Study: Assessing patient-important outcomes in patients with substance use disorder** – Dr. Julia Bryson, McMaster University**3. Implementing Narrative Medicine in Postgraduate Medical Education: A Scoping Review of Outcomes, Successes and Challenges** – Dr. Amber Cintosun, University of Toronto**4. Creation of the C. difficile Associated Toxin Model and Risk Score** – Dr. Sarah Davies, University of Ottawa**5. Lost in Translation: Quality Improvement for Language Access** – Dr. Ortenc Hoxha, University of Manitoba**6. Strategies to Negate Inadequate Pain Management in the Older Hospitalized Medicine Inpatient***Dr. Zoe Lau, Western University***7. Reconceptualizing the Drivers of Repeat Hospital Visits After Internal Medicine Consultation in the Emergency Department: The importance of rational subgrouping** – Dr. Robbie Sparrow, Western University**8. Alcohol Sales and Adverse Events During the COVID-19 Pandemic** – Dr. Wid Yaseen, University of Toronto1500 – 1600 **FIRESIDE CHAT: Redesigning the Clinical Teaching Unit: Carrying on the Discussion** 205C*Facilitator: Dr. Zachary Feilchenfeld, Toronto*1635 – 1800 **ACP HAPPY HOUR de l'ACP** Hall2000Join the **Québec Chapter of the American College of Physicians**, and this year's Chapter Ambassador, Dr. Luc Lanthier, for complimentary refreshments, prizes and networking! **Open to all meeting attendees!**Venez rencontrer Dr Luc Lanthier, ambassadeur cette année de l'ACP, ainsi que les membres de la **section Québec de l'ACP** pour socialiser et prendre un verre! Consommations et grignotines offertes gracieusement, ainsi que prix de présence! **BIENVENUE A TOUT LE MONDE, membres ou non.**

0730 **BREAKFAST OPENS / OUVERTURE DU PETIT DÉJEUNER** Foyer20000800 – 0905 **BREAKFAST PLENARY** – Chair: Dr. Jeffrey Schaefer, Calgary, AB 2000CD**Planetary Health for the General Internist**

Dr. Valeria Stoyanova, Victoria, BC and Dr. Mathilde Gaudreau-Simard, Ottawa, ON

- Describe the meaning of planetary health.
- Understand how climate change impacts the health of internal medicine patients.
- Appreciate the double-edged sword of providing healthcare in a climate crisis.
- Identify robust, evidence-based clinical practice changes to meaningfully reduce the impact of healthcare on climate change while maintaining high quality care.
- Counsel internal medicine patients on mitigating risk during a critical climate event such as a forest fire or heat dome.

CanMEDS: Communicator, Collaborator, Manager, Health Advocate, Scholar, Professional, Medical Expert

0915 – 1130 **ATELIERS “CASES IN...” WORKSHOPS**

(Workshop titles are listed in the language of presentation)

(Les titres des ateliers sont indiqués dans la langue de présentation)

0915 – 1015 **FIRST TIMESLOT / PREMIÈRE SESSION** – Select one workshop / Sélectionner un atelier

- **C01a. Surmonter la paralysie décisionnelle : une approche progressive de l'intégration de l'échographie ciblée POCUS dans la pratique de la MIG** – Dre Mathilde Gaudreau-Simard, Ottawa, ON **2104AB**
- Répertoire les applications d'échographie ciblée les plus appropriées à l'exercice de la MIG.
  - Établir où vous en êtes dans le continuum d'apprentissage de l'échographie ciblée.
  - Mettre en œuvre une approche réaliste de l'intégration sécuritaire de l'échographie ciblée dans votre pratique clinique.

CanMEDS: Érudite, Expert médical

- **C02a. Cases in Venous Thromboembolism** – Dr. Maral Koolian, Montreal, QC **2000B**
- Manage patients with obesity and acute venous thromboembolism.
  - Manage patients with liver and/or kidney disease and venous thromboembolism.
  - Manage patients with acute unusual site thrombosis.

CanMEDS: Communicator, Collaborator, Manager, Health Advocate, Medical Expert

Session 1: 0915-1015 Break/pause: 1015-1030 Session 2: 1030-1130
--

- **C03a. Complex Hypertension Cases** – Dr. Natalie Dayan, Montreal, QC **205AB**
- Identify peripartum hypertensive cases warranting evaluation for secondary causes of hypertension.
  - Develop an approach to management of refractory hypertension using contemporary evidence.

CanMEDS: Communicator, Scholar, Medical Expert

- **C04a. Interstitial Lung Disease** – Dr. Ilan Azuelos, Montreal, QC **204AB**
- Recognize the risk factors and causes of interstitial lung disease (ILD) and identify when to suspect ILD.
  - Develop a differential diagnosis and investigate various types of ILD accordingly.
  - Develop a basic approach to the management of acute and chronic ILD.

CanMEDS: Collaborator, Scholar, Medical Expert

1315 – 1330 **Networking Break in the Exhibit Hall / Pause de réseautage dans le hall des expositions** 2000A1030 – 1130 **SECOND TIMESLOT / DEUXIÈME SESSION** – Select one workshop / Sélectionner un atelier

- **C01b. Overcoming Decision Paralysis: Incremental Approach to POCUS Integration in GIM Practice** – Dr. Mathilde Gaudreau-Simard, Ottawa, ON **2104AB**
- Identify the POCUS applications most relevant to the practice of GIM.
  - Identify where you are on the POCUS learning continuum.
  - Implement a realistic approach for the safe integration of POCUS in your clinical practice.

CanMEDS: Scholar, Medical Expert

- **C02b. Cases in Venous Thromboembolism** – Dr. Maral Koolian, Montreal, QC **2000B**
- Manage patients with obesity and acute venous thromboembolism.
  - Manage patients with liver and/or kidney disease and venous thromboembolism.
  - Manage patients with acute unusual site thrombosis.

CanMEDS: Communicator, Collaborator, Manager, Health Advocate, Medical Expert

- **C03b. Complex Hypertension Cases** – *Dr. Natalie Dayan, Montreal, QC* **205AB**
- Prescribe and analyse appropriate investigations and treatment for complex orthostatic hypotension cases.
  - Develop a treatment plan for refractory hypertension.
- CanMEDS: Communicator, Scholar, Medical Expert*
- **C04b. Pneumopathie interstitielle** – *Dr Ilan Azuelos, Montréal, QC* **204AB**
- Reconnaître les facteurs de risques et les différentes causes de pneumopathie interstitielle et savoir quand les suspecter.
  - Formuler un diagnostic différentiel et investiguer les différents types de pneumopathies interstitielles.
  - Développer une approche de base en matière de prise en charge des pneumopathies interstitielles aiguës et chroniques.
- CanMEDS: Collaborateur, Érudit, Expert médical*

## REGISTRATION INFORMATION

- 1) To obtain the CSIM member rate, membership dues must be paid in full. If dues payment is not received, the non-member rate will apply. Members of CSIM, ACP, ASMIQ, GEMOQ and NASOM are eligible.
- 2) Eligible physicians may apply \$330 of the non-member registration fee towards a CSIM Full Membership. Contact the CSIM Office for details [info@csim.ca](mailto:info@csim.ca).
- 3) Allied Health Professionals are health care professionals working in the field of general internal medicine which may include nurses, technicians, health educators and others.
- 4) CIMUS Workshop: Pre-registration and payment required. Space is limited. If minimum registration is not met, this course may be cancelled. Available only to registrants of the CSIM Annual Meeting 2023.

**Dietary Requirements:** While we try our best to accommodate all requests, registrants are responsible for ensuring that their special dietary needs are met. If you have any questions, please contact [info@csim.ca](mailto:info@csim.ca) or see the catering staff onsite. Additional costs to provide special meals may apply.

**Cancellation policy:** Cancellation of registration must be made by the registrant in writing to the CSIM Office by September 15, 2023 for a full refund, less an administration fee of 10% (+ tax) of the registration fee paid. No refunds will be provided after September 15, 2023. Registrations cannot be shared or transferred.

## INFORMATIONS CONCERNANT L'INSCRIPTION

- 1) Pour obtenir le tarif consenti aux membres de la SCMI, vous devez vous acquitter de votre cotisation en entier. Si le versement de la somme due n'est pas effectué, vous devez payer le tarif pour non-membres. Les membres de l'ACP, l'ASMIQ, GEMOQ, et NASOM bénéficient de ce tarif spécial.
- 2) Les médecins admissibles peuvent utiliser 330 \$ des frais d'inscription des non-membres pour devenir membres de la SCMI. Contactez le bureau de la SCMI pour plus d'informations [info@csim.ca](mailto:info@csim.ca).
- 3) Les professionnels paramédicaux sont des professionnels de la santé qui travaillent dans le domaine de la médecine interne générale et qui peuvent inclure des infirmières, des techniciens, des éducateurs de santé et d'autres personnes.
- 4) Atelier CIMUS : Inscription préalable et paiement requis. Le nombre de places est limité. Si le nombre minimum d'inscriptions n'est pas atteint, ce cours peut être annulé. L'inscription est réservée aux personnes inscrites au Congrès annuel de la SCMI 2023.

**Politique d'annulation :** L'annulation de l'inscription doit être faite par la personne inscrite par écrit au bureau de la SCMI avant le 15 septembre 2023 pour un remboursement complet, moins des frais d'administration de 10 % (+ taxes) des frais d'inscription payés. Aucun remboursement ne sera effectué après le 15 septembre 2023. Les inscriptions ne peuvent être ni partagées ni transférées.

**Exigences diététiques :** Bien que nous fassions de notre mieux pour répondre à toutes les demandes, il incombe aux participants de s'assurer que leurs besoins alimentaires particuliers sont satisfaits. Si vous avez des questions, veuillez contacter [info@csim.ca](mailto:info@csim.ca) ou consulter le personnel sur place. Des frais supplémentaires pour l'obtention de repas spéciaux peuvent s'appliquer.

## GENERAL LEARNING OBJECTIVES

- Maintain competence on a wide variety of relevant topics in Internal Medicine and General Internal Medicine.
- Discuss emergent topics, both published and un-published.
- Establish a national network of general internist colleagues from both community and university settings.
- Promote General Internal Medicine as a specialty to residents in training.

### MAINTENANCE OF CERTIFICATION – Accreditation Statement

The CSIM Annual Meeting 2023 is an educational event approved as an Accredited Group Learning Activity under Section 1 of the Framework of Continuing Professional Development options as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

**As an accredited provider, the CSIM has approved this program for 21 hours.**

Through an agreement between the Royal College of Physicians and Surgeons of Canada and the American Medical Association, physicians may convert Royal College MOC credits to *AMA PRA Category 1 Credits™*. Information on the process to convert Royal College MOC credit to AMA credit can be found by [clicking here](#).

Live educational activities recognized by the Royal College of Physicians and Surgeons of Canada as Accredited Group Learning Activities (Section 1) are deemed by the European Union of Medical Specialists (UEMS) eligible for ECMEC®.

*Physicians should only claim credit commensurate with the extent of their participation in the activity.*

## OBJECTIFS GÉNÉRAUX

- Maintenir les compétences en actualisant les connaissances sur une vaste gamme de sujets à la fine pointe en MIG
- Examiner de nouveaux sujets d'actualité, qui ont fait l'objet de publications ou encore inédits, en émergence depuis le dernier congrès
- Établir un réseau de collègues internistes généraux des milieux communautaires et universitaires.
- Promouvoir la spécialité de la médecine interne générale auprès des médecins résidents.

### MAINTIEN DU CERTIFICAT – Énoncé d'agrément

La présente activité (Congrès annuel de la SCMI 2023) est une activité d'apprentissage collectif agréée (section 1), au sens que lui donne le programme de Maintien du certificat du Collège royal des médecins et chirurgiens du Canada; elle a été approuvée par la Société canadienne de médecine interne.

**Vous pouvez déclarer un maximum de 21 heures.**

En vertu d'une entente conclue entre le Collège royal des médecins et chirurgiens du Canada et l'*American Medical Association*, les médecins peuvent convertir les crédits obtenus au titre du programme de MDC du Collège royal en crédits de catégorie 1 de l'*AMA PRA<sup>MC</sup>*. [Cliquez ici](#) pour des renseignements supplémentaires sur ce processus.

La participation en direct à des activités éducatives reconnues par le Collège royal des médecins et chirurgiens du Canada rend les participants admissibles à des crédits européens de formation continue (ECMEC®) attribués par l'Union européenne des médecins spécialistes (UEMS).

*Les médecins ne peuvent réclamer des crédits que dans la mesure où ils ont participé à l'activité.*

**Canadian Journal of General Internal Medicine!**  
The CSIM is pleased to announce the new CJGIM publisher –  
**the University of Toronto Press**

- CSIM Members submit for free!
- Original Research, Case reports
- Scholarly addresses, Research Abstract Days
- Book reviews, and more!
